

A It is not allowed to delete a page at CIMON-D or X (SCADA version is 2.14 or lower). Here is a solution below.

***** At SCADA version 3.0 or higher, page can be deleted at CIMON-D.

- 1. Close CIMON-D and CIMON-X.
- Open the desired project with CIMON-D, and go to [Tools]→[Project]menu.
 Check out the location of target project at [Project].

PROJECT [test.prj]	
Descript End User Contractor Manager System Events Logging Printer And Folder No Items C:\#Users\#doowonkim\#Desktop\#CIMON SCADA\#SCADA3.0En(2) Base Time Daily Starting U Weekly Starting Day U Starting Date : 02/10/2014 09:19 Last Edited Date : 02/10/2014 10:52	Password Dgging Items Browse
Project Folder : \\CIMON SCADA\\SCADA3.0021(사내테스트)	₩Test₩

- 3. Go to the project folder of installation path, and delete the target page file "main.PGX".
 - * Page file extension is ".PGX".
